

ChemSee: Explosives & Precursor Detection

Detection Kit for Explosives EXPKIT-02

ChemSee's Detection Kit for Explosives is a rapid, low-cost and simple-to-use Kit.

The Kit includes sample collection and testing accessories, and three detectors:

- **Nitro-Pen™:** Detects Explosives such as TNT, Nitroglycerin, Ammonium Nitrate, HMX and RDX
- **On-The-Spot™:** Detects Explosives such as Ammonium Nitrate and Potassium Nitrate
- **Perchloro-Tab™:** Detects Perchlorates such as Sodium or Ammonium Perchlorate

All the detectors give response via a rapid, simple color change. All color changes are easy to interpret, even by unskilled personnel.

FEATURES

- Detects Wide Range of Explosives:
 - Nitro-Organics,
 - Nitramines,
 - Inorganic Nitrates, and,
 - Perchlorates.
- Testing is complete in less than one minute per detector.
- Designed for simple use, even by unskilled personnel in the field.
- Full Color Instructions
- Non-hazardous waste.

CONTENTS

- 5x Nitro-Pen™ Detectors for TNT, Nitroglycerin, RDX, HMX, Ammonium Nitrate, etc. *(Nitros, Nitramines and Inorganic Nitrates)*
- 5x On-The-Spot™ Detectors for Ammonium Nitrate, Potassium Nitrate, etc. *(Inorganic Nitrate / Nitrite Explosives)*
- 5x Perchloro-Tab™ Detectors for Sodium Perchlorate, etc. *(Perchlorate-Based Explosives)*
- All Accessories Required for Sample Collection and Testing
- Full Color Instructions

COMMON USES

- Military Checkpoint Monitoring
- Airport Security
- Military Forces during Mopping Operations
- Personal Security Agencies
- Forensic Investigation

SPECIFICATIONS

Dimensions: 8x5x3 in (20x13x8 cm)

Weight: 10.6 oz (300 grams)

Analysis Method: Colorimetric

Shelf Life: 12 Months

Testing Time: 20 to 60 Seconds per Detector

Storage Temperature: 32 to 75 F (0 to 24 C)
